Who we work with

What we don't run

gambling or betting services, real-money item trading, cryptocurrency platforms, dating services. Applies to all tiers, no exceptions.

Good-fit sponsors

gaming peripherals and accessories, other games and studios, streaming and content platforms, Discord tools and bots, gift-card and top-up services, energy drinks and snacks, esports and gaming events, general entertainment brands.

Open to individual creators too. Discord server owners, YouTubers, streamers, and anyone growing their own community or channel can sponsor a slot.

How it works

1. Choose Bottom Banner or Full Sponsorship, or ask about a custom package.
2. We confirm placement, dates, and creative requirements.
3. 50% deposit to reserve your slot; balance due at go-live.
4. You get a short performance summary at the end of your run.

Contact

We'd rather have a few sponsors who fit the community and stick around than fill every slot fast. If that's the kind of partnership you're after, here's how to get started.
